Product Description

Frosty times await you and the other players. 90,000 years before our era, a new ice age breaks out and threatens to turn life on the planet upside down. Will your species prove to be a survivor or share the fate of so many others and fall into oblivion? To help you survive, we have prepared a suitable emergency kit for the second edition of Dominant Species. This ensures that you always have an overview of your resources, that the game material is clearly organised and that there is no chaos in the board game box. This way, you can survive even the darkest times and soon catapult your species to the top of the food chain. - The organiser fits into the original base game box of the second edition of Dominant Species. - The set offers space for all components of the "Dominant Species - Second Edition" base game- Each player receives a tray with all the required tiles in their colour. The hexagonal tiles are stored in two corresponding plastic trays. - A card holder is provided for the cards. The cards also fit in here with protective sleeves. - An insert is placed between the two hexagon and card holders so that everything has a firm hold. This gives everything a firm hold and prevents the inserts from slipping. - You can store the bag with the Dominant Species cardboard markers between the two hexagon holders. You can store the game board, instructions and animal displays on the plastic inserts. - Transport and tilt-proof - vertical storage possible. - "Ready to use" - no assembly required. We have organised your basic game box so that you can demonstrate your strength on the playing field. So everything is where you need it. From now on, you can save yourself time-consuming pre-sorting at the start of each game. The clear structure of the organiser also speeds up tidying up after the game. Simply put everything in the trays provided and store them in the board game box. That's it. You can invest the time you save in the game instead. To start the game quickly, take the inserts out of the box and spread them out on the game table. The battle for survival can begin. The set consists of: - 6 plastic token holders, each with 3 compartments for all the required tokens, sorted by colour + initiative marker - 2 plastic token holders, each with a compartment for hexagonal tiles - 1 plastic card holder with a compartment for playing cards such as survival cards and dominance cards - 1 plastic insert to secure the plastic holders in the board game box. An insert is placed between the two hexagon and card holders to ensure that everything is held firmly in place. This prevents the trays from slipping. You can store the bag with the Dominant Species cardboard markers between the two hexagon holders. The game board, instructions and animal displays are stored on the plastic inserts. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany. As with all 3D printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. All products are provided unpainted.
