Product Description

Item no.: 300056318 Description: 1:14 RC Scania R470 Highline truck kit Truck of the Year 2005 This tractor unit from the TAMIYA truck series is a real highlight. The model of the "Truck of the Year 2005" is exceptionally finely detailed and the perfectly modelled cab of the TAMIYA Scania R470 Highline with aerodynamic package even has an interior that is true to the original. There are impressive technical details under the cab, which can be tilted forwards. A powerful electric motor drives the 45 cm long model truck via a 3-speed manual gearbox. A detailed aluminium ladder frame gives the kit the necessary stability. Thanks to its high dead weight and a fifth-wheel plate that can be used to attach numerous TAMIYA and CARSON-MODEL SPORT trailers, impressive combinations can be put together and, of course, driven. Recommended accessories: Truck multifunctional unit N° 300056511, which simulates absolutely realistic sound and light effects. Scania R470 Highline model kit, ABS plastic body with aero-package, aluminium ladder frame, 1 an-driven rear axle, 3-speed manual gearbox, chromed rims, instructions, 540 electric motor, Warnings Before you start assembling, you should have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age.
