shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

Item no.: 300058714 Designation: 1:10 RC VW Golf Mk2 Gti 16V Rally MF-01X Rally models have fascinated the RC fan community for years. The VW Golf MK2 GTI 16V is a classic of the scene and the TAMIYA kit has now been modelled true to the original. The VW Golf won the Group A A7 class in 1986. Group A was for cars with 4 seats and over 2,500 were built each year. The Golf had a 1.78L engine with 4 cylinders and 195PS. The TAMIYA MF-01X chassis has four-wheel drive and rally block tyres with good grip. Thanks to the independent suspension and the closed drive via a cardan shaft, this is the perfect basis for the VW Golf and ready for RC rally feeling! Required accessories Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger Contents 4WD kit model, MF-01X chassis, Elect. Speed controller, 540 torque-tuned electric motor, polycarbonate body with add-on parts, rally block tyres, suspension struts, independent suspension, frame chassis, wheelbase 239mm, light inserts, instructions ATTENTION! You should read and understand all instructions before starting assembly. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads.
