from **179,86 EUR**

Item no.: 390573
shipping weight: 1.00 kg
Manufacturer: TAMIYA

Product Description

Item no.: 300058725 Designation: 1:10 RC Squash Van 4WD GF-02 TAMIYA 50s Squash Van on the GF-02 chassis. The Squash Van is a monster truck with four-wheel drive and independent suspension on all four wheels. This makes this truck particularly suitable for off-road use and ensures a lot of driving fun! The kit includes an unpainted polycarbonate body, a powerful 540 electric motor and an electronic speed controller. The GF-02 chassis has a low centre of gravity and a stable monocoque chassis due to the low-mounted motor. The power is transmitted to the front and rear axles via gear wheels inside the chassis. Required accessories: Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger. Contents: 4WD kit model, GF-02 chassis, Electr. Speed controller, 540 motor, encapsulated drive, instructions. ATTENTION! You should read and understand all instructions before you start assembling the model. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age.
