### Product Description

The Audi A4 Quattro is the reissue of the popular model from the nineties (original order no. 58182). The model now comes on the proven TT-01E chassis with all-wheel drive. The original was powered by a 2 litre 4 cylinder engine with 296 hp. The original raced in the STW racing series in 1996 and won 10 out of 18 victories that season. Emanuele Pirro became STW champion in 1996 ahead of schedule with the Audi with starting number 5. The 1:10 scale model kit has a detailed, lightweight and impact-resistant polycarbonate body. It is powered by a TAMIYA TT-01 Type E on-road chassis (electric) with all-wheel drive and independent suspension. A large selection of tuning parts allows the model to be upgraded to a racing machine and is in no way inferior to the original.
