from **18,55 EUR**

Item no.: 379409
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

Kratos, the spirit of Sparta, has survived the fall of Olympus and has now settled in the icy north. In the board game adaptation of the classic video game, God of War: The Card Game, you slip into the skin of a Norne, a goddess of fate, choose the right combination of heroes and try to prevent Ragnarök. You really don't need stumbling blocks such as untraceable game material and bent cards to save the world. To prevent such apocalyptic situations, we have the Feldherr Organiser for your basic game box. It will help you keep an overview, tidy up your board game box and your game material will look great even after the end of the world. - The organiser fits into the original base game box of "God of War: the Card Game". - The set offers space for all the playing cards and all the small game material of the base game. - Two double card holders are included for standard cards, and one card holder is available for oversized cards. - All cards also fit with protective sleeves. All cards also fit into the card slots with protective sleeves (max. outer dimensions: 68 x 95 mm and 93 x 136 mm). - Thinking beyond the end of the world - the card holders offer space for more cards, should expansions be released, for example. - Game instructions and hero sheets can be stored on the organiser. - Transport and tilt-proof - vertical storage possible - Ready to use - no assembly required. As the Goddess of Fate, you have created workings of your board game box and brought your game material up to scratch. Three card holders, two token holders and a hero holder ensure that the cards and game material are neatly organised in your board game box and that the hero stands are not disfigured by ugly creases. Thanks to the clear layout, you can save yourself time-consuming pre-sorting in future and setting up the game is quick and easy. Simply take the trays out of the packaging and spread them out on the table. You're ready to start. At the end of the game, simply put the trays back in the box and you're ready for the next end of the world. The set consists of: - 2 card holders, each with two compartments for standard cards such as starting action cards, upgrade cards, status cards (stunned, poisoned), blast crystal cards, quest cards and boss cards - 1 card holder with one compartment for oversized cards such as location cards - 2 token holders, each with five compartments for small-scale game material such as enemy dice, starting player tokens, damage tokens, omega tokens, defeated tokens, hand limit tokens, stunned tokens, rage tokens and Freya tokens - 1 hero holder with a compartment for hero stands and feet. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany
