## 300047446 - 1:10 RC Plasma Edge II GunMet. TT-02B

from **136,17 EUR**

Item no.: 390524  
shipping weight: 1.00 kg  
Manufacturer: TAMIYA

### Product Description

The TAMIYA TT-02B chassis is a variant of the innovative TT-02 On-Road 4WD chassis. This version has a pre-painted body in Gun-Metal (PS-23). The Plasma Edge is the second model with this chassis configuration. Thanks to its simple design and maintenance-friendly solutions, the chassis is also suitable for beginners. The battery is positioned longitudinally in the hull frame chassis and the low-set RC components ensure a low centre of gravity. Independent suspension and double wishbones, oil-pressure shock absorbers, all-wheel drive and the high-grip studded tyres provide excellent traction. The front and rear axles are equipped with sealed bevel gear differentials. The electric motor type 540 RS Torque Tuned provides plenty of power off-road. The chassis can be quickly tuned into a race buggy with optional tuning parts. The underside of the chassis has an extra smooth design and the battery compartment accepts all standard battery types. The robust polycarbonate body can withstand tough off-road conditions and is very lightweight. Required accessories: Drive and transmitter batteries with charger, RC system with servo. Contents: 4WD kit model, TT-02B chassis, 540 torque-tuned motor, Electr. Drive controller, painted polycarbonate body, oil pressure dampers, pin studded tyres with good grip, cardrive, cone diff. front/rear. Instructions. Wheelbase 266 mm. WARNINGS: You should read and understand all instructions before starting assembly. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age. Product details: Technical details:- TT-02B tub frame chassis- length: 370 mm, width: 250 mm, height: 160 mm, wheelbase: 266 mm- robust and detailed polycarbonate body, already painted in PS-23 Gun-Metal- 4WD all-wheel drive- central drive shaft- bevel differential v/h with four bevel gears- double wishbones v/h- adjustable front track- independent wheel suspension Independent suspension- Oil pressure shock absorbers- Electronic speed controller- Electric motor type 540RS Torque Tuned with air cooling- Battery compartment suitable for all battery types- Pin studded tyres
