Product Description

Item no.: 510001312 Designation: 1:72 FW 190 D-9 The Focke-Wulf Fw 190 was one of the best aeroplanes built during the Second World War. More than 20,000 examples were produced from 1941 onwards and, together with the Messerschmitt Bf 109, it was the Luftwaffe's most famous fighter aircraft. In early versions, such as the Focke-Wulf Fw 190 A-8, the fighter aircraft was equipped with a BMW 801 D-2 double radial engine with 14 cylinders and 1,700 hp, which reached a top speed of 653 km/h. In the course of time, based on the aircraft's successful aerodynamic airframe, the designers realised what can be described as its greatest development. The introduction of the powerful, liquid-cooled 12-cylinder Junkers Jumo 213 engine forced a revision of the aircraft's design, which was characterised by an elongated nose. The D version was nicknamed the "long-nosed Dora" by Luftwaffe pilots, but as soon as it was in the air, they immediately appreciated its characteristics and potential. In fact, the FW-190D was capable of competing with more modern Allied fighter aircraft such as the famous P-51D Mustang. Kit model, scale 1:35, length 145 mm, instructions, decals. Caution! Not suitable for children under 14 years. Product details - Detailed model kit in 1:72 scale. - The high-quality kit from Italeri must be assembled by the customer. - The model is self-assembly with the aid of a self-assembly instruction manual. The self-assembly is accompanied by step-by-step and illustrated assembly instructions. The assembly instructions are of course included in the scope of delivery. - Based on the assembly instructions, the precisely fitting individual parts must be assembled. The parts can be painted according to your own ideas. - Tools, glue and paint are not included with the plastic kit. These must be purchased as an option.
