from **200,18 EUR**

Item no.: 390585
shipping weight: 0.10 kg
Manufacturer: TAMIYA

Product Description

Item no.: 300058737 Designation: 1:10 RC Hotshot II (2024) 4WD The Hotshot II was first introduced by Tamiya in 1987. It was the successor to the first Tamiya 4WD buggy 58047 Hotshot from 1985 and the 58054 Supershot. The Hotshot impressed with its weight-optimised design, which was achieved by using plastic parts instead of metal. This made the buggy particularly agile and stable at the same time. Required accessories: Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger, paint for body. Contents: 4WD vintage kit model, 540 motor, painted polycarbonate body, independent suspension, incl. electric controller, instructions. Electric controller, instructions. **ATTENTION!** You should read and understand all instructions before starting assembly. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. **Caution!** Not suitable for children under 14 years of age. Product details - 1/10 scale kit model - Length: 390mm, width: 235mm, wheelbase: 160mm - Cardan all-wheel drive ensures speed and stability off-road and when cornering. - 4-wheel independent suspension. 4-wheel independent suspension with double wishbones, CVA oil dampers (II) (one for front and two for rear) with a front stabiliser bar for best performance - Dynamic bodywork and rear wing are made of lightweight polycarbonate (0.7 mm thick) and are pre-painted black - The gearboxes are sealed to prevent dirt and sand from entering. - ABS monocoque frame and ABS monocoque frame. ABS monocoque frame and suspension arms are made of reinforced plastic for high durability. - Oval block/pin-spike hybrid tyres are combined with a large diameter one-piece rim. Incl. revised stickers - Incl. electronic speed controller
