Product Description

Item no.: 300056041 Designation: 1:16 RC US KPz M1A2 Abrams Full Option This remote-controlled tank in 1:16 scale is another highlight in the range of popular kits from TAMIYA. The Abrams M1A2 is a modern armoured vehicle of the US Army. The Abrams has been built and constantly modernised since 1980. The M1A2 was put into service in 1992 and brought the M1 into the digital age. The armour and turret were modernised. The Abrams was used, for example, in the Iraq conflict in 2003. Required accessories: 6-channel remote control with receiver (recommended Carson Reflex Wheel Stick), NiMH battery (no LiPo!), charger, TAMIYA TS-/X-/XF- colour Scope of delivery: Kit model with detailed illustrated assembly instructions, multifunctional unit, 2x 540 motor WARNINGS: Before you start assembling, you should have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any parts in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age.
