Product Description

The Czechoslovakian LT vz.35 light tank was designed and built in the 1930s. Armed with two machine guns and a 37 mm cannon, it was a reliable and effective vehicle for the time. It also had good speed on all types of terrain and a good level of autonomy. In fact, under the new name Panzerkampfwagen 35(t), with the letter t indicating Czechoslovak production, it was used by the German Wehrmacht, which deployed much of it in the Panzerwaffe and took an active part in the French's Polish campaign and the early stages of Operation Barbarossa. From 1941 onwards, the tank was used for second-line tasks or sold to Allied nations such as Bulgaria and Romania as it was no longer fit for purpose. Detailed plastic model kit
