from **147,75 EUR**

Item no.: 390620
shipping weight: 1.00 kg
Manufacturer: TAMIYA

Product Description

The 1:14 scale model kit features a detailed, lightweight and impact-resistant polycarbonate body (multi-part) in 2016 racing design. It is powered by a TAMIYA TT-01 Type E on-road chassis (electric) with all-wheel drive and independent suspension. A large selection of tuning parts allows the model to be upgraded to a racing machine and is in no way inferior to the original. Technical data for the model: Kit, independent suspension on struts, all-wheel drive (cardan), impact-resistant TT-01 Type E hull frame chassis. Required accessories: Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger, paint for Lexan body (TAMIYA PS-4WD kit model, TT-01E chassis, Elect. Drive controller, 540 TorqueTuned motor, polycarbonate body with add-on parts, cardan drive, struts, independent suspension, truck tyres, tub frame chassis, instructions). **WARNINGS:** You should read and understand all instructions before starting assembly. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. **Caution!** Not suitable for children under 14 years of age.
