## 300056010 - 1:16 RC Tank Tiger 1 Full Option

from **632,62 EUR**

Item no.: 390553  
shipping weight: 2.00 kg  
Manufacturer: TAMIYA

### Product Description

Item no.: 300056010 Item description: 1:16 RC Tiger 1 Full Option tank The Tiger I first appeared on the Russian front in 1942. Equipped with the powerful 88 mm cannon and solid 100 mm thick armour, the Tiger I became a tank that was feared by the Allied forces. By June 1943, around 200 tanks had been built. The accurately modelled kit shows all details perfectly and is fully functional. The model has counter-rotating tracks, the turret rotates and the main gun can also be steered. The sound module reproduces all sounds, LEDs even simulate the muzzle flash and the recoil when firing the cannon is also simulated. The engine noise was recorded on the world's only functioning King Tiger in the Saumur/France Armour Museum. This is equipped with a powerful Maybach V-12 700 hp engine. Tank kit with multifunctional unit MF-01 (for sound and light effects), DMD control unit T-03 (sensitive control), instructions, 2x 380 traction motors, torsion bar suspension, aluminium hull, die-cast swing arms, hinged undercarriage, rollers with rubber tyres. Warnings: Before you start assembling the model, you should have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age. Product details Technical details: - 2 traction motors controllable in opposite directions for turning on the spot- infinitely variable speed control- turret rotation function- raising and lowering of the gun barrel- MG muzzle flash- muzzle flash and recoil function- various sound functions, such as travelling sounds - starting the engine, engine shutdown, speed-dependent engine sounds, turret rotation sound; Sound for raising/lowering gun, sound for firing and MG- 4 electric motors for drive and turret movements- Multi-function unit MF-01- DMD control unit T-032 or 4-channel remote control system and batteries are required for operation.
