## 300058738 - 1:10 RC XM-01 Pro Chassis Kit

from **256,58 EUR**

Item no.: 390586  
shipping weight: 1.50 kg  
Manufacturer: TAMIYA

### Product Description

The XM-01 Pro Chassis is a tuning chassis for all M-Chassis bodies. The chassis already has numerous tuning parts and is based on its big brother XV-02. The model can be built in 3 different wheelbases: 210mm (short), 225mm (medium), 239mm (long) and can therefore be adapted to different M-Chassis bodies. The chassis has a tub frame and a polycarbonate chassis cover. Additional mud guards prevent the ingress of coarse dirt during rally driving. The all-wheel drive can be tuned via various diff gears. 1:1 gear ratio with the 39 mm gears front and rear or a 40 mm gear for more drive on the rear axle or front axle. The following optional tuning parts are suitable for the XM-01 chassis (NOT included in the kit): 22046: XV-02/TT-02 Ball Differential Set (39T) 22047: XV-02/TT-02 Front Direct Coupling Set (39T) 22048: XV-02 Slipper Clutch Set 22049: XV-02/TT-02 Oil Gear Differential Unit 22050: 06 Module Spur Gear (70T) for XV-02 Gear Differential (Use with Item 22049 XV-02/TT-02 Oil Gear Differential Unit.) 22053: XV-02 Aluminum Spur Gear Holder 22055: XV-02 Aluminum Adjustable Suspension Mount (XH) 22056: XV-02 Aluminum Damper Stay Mount 22064: TT-02 Type-SRX Front Direct Cup Joints (Use with Item 22046 XV-02/TT-02 Ball Differential Set (39T) or Item 22047 XV-02/TT-02 Front Direct Coupling Set (39T).) 22072: XV-02 Aluminum Steering Arms (L/R) 54802: TB-05 Aluminium Steering Bridge 54884: Aluminium Adjustable Separate Suspension Mounts (A) Required accessories: Remote control with receiver, steering servo, 7.2V NiMH battery pack, motor, M-chassis body, charger, paint for polycarbonate body (TAMIYA PS-) 4WD kit model, XM-01 chassis, 3 different wheelbases can be built, chassis cover, numerous tuning parts included, instructions ATTENTION! Before you start assembling the model, you should have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age. Product details: - 1/10 scale kit model- XM-01 chassis with 4WD drive- Centre-mounted motor, along the direction of travel- Can be built in 3 different wheelbases by replacing the rear housing: 210mm (short), 225mm (medium), 239mm (long)- tub frame chassis and polycarbonate tub cover and mud guards prevent the ingress of coarse dirt when rallying- new C-hubs and rear axle carriers allow construction in 2 different vehicle heights/ground clearance (8mm and 13mm).- Caster can be adjusted to 5 degrees- Oil-filled differentials- Two 39 tooth diffs and one 40 tooth diff for front/rear drive balance adjustment- Front bumper- Aluminium oil pressure shock absorbers front and rear- M-chassis 11-spoke racing rims M-Chassis 11-spoke racing wheels (51394) and 60D Rally Block tyres (51427)- Universal cardan shafts front and rear- Slipper optionally available- Compatible with numerous tuning parts from the TAMIYA XV-02 chassis- Note: Low profile servo is required (standard servo grinds on the front polycarbonate cover)
