Product Description

Become the architect of the most exciting project in medieval Spain - the construction of the Alhambra. Your goal is to build your own version of the Alhambra. The dice determine which of the six building types you can construct - pavilions, seraglios, arcades, chambers, gardens and towers. You always want to construct more buildings of one type than your fellow players. Complete rows and columns by placing neighbouring buildings and collect coins. These allow you to carry out special actions. Use the dice skilfully and pass the correct ones on to your opponents. Collect the most victory points and become the best builder. Details- Number of players: 1 - 5- Suitable for: 8 years and up- Playing time: 45 minutes- Packaging: 265 x 34 x 169 mm
