from **21,87 EUR**

Item no.: 390998

shipping weight: 0.90 kg

Manufacturer: Laurence King Verlag

### Product Description

The CO2-free city by Laurence King Item number: 443 627 EAN: 9783962443627 Author: Sam Illingworth, Paul Wake Illustrator: Possiblet! It's time to join forces and work together towards a climate-neutral city - we're all in the same boat, so we'll all win or we'll all lose! This is a co-operative climate protection game. Players build a sustainable city by greening transport, transforming industry, getting residents on board and showing politicians how it's done. Each player starts with an identical deck and buys additional cards from a shared marketplace to create a climate-friendly city. The need to generate income and reduce CO2 emissions at the same time must be balanced, but there are many ways to achieve this. Collaboration is key in all actions! Governments, businesses and the public need to be brought together. If we don't succeed in reducing CO2 emissions to zero before it's too late, everyone loses. So the stakes could not be higher... -Number of players 2 - 4 - Suitable for ages 10 and up - Playing time 30 - 60 minutes - Packaging 265 x 265 x 45 mm
