KING OF FINALLY COOPERATIVE!
 Times have changed. Yesterday you were fighting over Tokyo and New York and today an interdimensional portal opens and something much worse befalls the world! But not with you! This is your world, and if this titan wants to spread its wings here, it has to get past you first! In good King of Tokyo style, you roll the dice and try to defeat this titan together. Use your claws to damage him, your energy to arm yourself against his minions and your fame points to learn new, more powerful abilities. But be careful! The Titan boss also knows the power of the dice and will use them against you! Prevent him from completing his portal and wreak havoc on him and his minions in this new, co-operative spin of the King Of series from Iello. The monsters from the King Of series always consist of a standee and a board for life and victory points and are therefore compatible. Allies are also introduced in King of Monster Island. These allies are independent of the monsters and can therefore also be used by any other monster. Evolution cards that are introduced through power-ups (expansions) cannot be used in King of Monster Island, as the game mechanics differ from King of Tokyo/New York. Number of players 1 - 5 people Suitable for ages 10 and up
 Playing time 45 - 60 minutes
 Packaging 70 x 250 x 360 mm
