Product Description

These square crabs are a curiosity of nature: they cannot turn, they can only move in one direction. One player's crab therefore only moves horizontally, the other's only vertically in the grid of sand and sea. Together they try to free their crab buddies who are stuck under tyres, a guitar or other annoying flotsam and jetsam. A big task for the little guys! Because they can't talk to each other and have to watch out for enemies. Will they manage to free all 8 of their mates in time? The game also contains ten more adventures. The conditions for the two heroes' rescue mission become increasingly difficult. - Cooperative deduction game, based on a well-known comic - Scalable with 11 different adventure scenarios
Number of players: 2 people
Suitable for: 8 - 99 years
Playing time: 15 minutes
Packaging: 40 x 122 x 122 mm
