Product Description

MONSTERS ON THE MOON: The game worldEarthly legendary and mythical creatures in space? Of course! Because in "Monsters on the Moon", vampires, witches, werewolves and skeletons want to take control of the Earth's satellite. Their goal: to establish the largest possible colonies there! Of course, none of the monsters begrudge the others victory! In the end, only one of the opponents can conquer the moon - and fly back to earth with the moon crystals they have collected! Who will take the moon?**MONSTERS ON THE MOON:** The game ideaCards are placed next to each other or on top of each other in order to get more of your own monsters on the moon and oust the others. Only two spaces of a card may be covered at any one time - so placing the cards becomes increasingly tricky. Along the way, you skilfully place and collect crystals, build moon walls and place your spaceships - and you have the moon almost under control! It sounds simple, but it's great fun for friends and families.
