Product Description

The adventures continue in twelve exciting stories, 2-5 people embark on a truly great journey around the world, which takes them from deep under the sea, across the Antarctic and even to the moon. "The Hellmouth of the Volcano", "The Secret of the Maharajah" and "In the Footsteps of Jules Verne" are three of the twelve new adventure stories to be discovered and solved together. This requires one thing above all: imagination. Before starting, the group decides on one of the twelve adventures and who will begin by reading from the "travel diary". At the end of each chapter there is a task that can only be solved together, for example: "How do you help the fakir to lie down on his nail board without pain?" or "How do you free yourself from the tentacles of the octopus?" The player whose turn it is selects two objects from their 10 cards that seem best suited to solving the task and writes them down secretly on the writing board. In addition, three objects are to be selected that are the least helpful. Now it is up to the others to find out which two cards are the right ones. This can be done by discussing with each other and telling the craziest solutions and stories. This continues until everyone - except the active player, who is not allowed to give any clues to the solution - has agreed on two cards. Have the two correct cards been found? Great, then the game piece hops up one cloud on the game board and the next chapter of the chosen adventure begins. Unfortunately not? Try again straight away. The team can make a total of three missteps. If the group makes it to the top, they have successfully completed this adventure. If the adventures are too easy for you, you can adjust the difficulty level by making simple changes to the gameplay. Whether easy or advanced: The Adventure Club quickly captivates everyone and takes them away from everyday life into a world of fantasy and fun for around 30 minutes. - Age: from 8 years - Persons: 2-5 - Duration: approx. 30 minutes - Product dimensions: 237x172x42 mm
