### Product Description

Assemble the Robotime-ROKR 3D wooden puzzle to build a speedy retro car that is the perfect decoration for classic car enthusiasts. Classic cars from the brass era are milestones in automotive history. They are masterpieces of craftsmanship and technology and represent the unique charm of this era. The Robotime-ROKR Vintage Car 3D wooden puzzle is a 1:15 scale replica that takes you back to the 1910s, a revolutionary time for the automotive industry. The "runabout" body, reminiscent of horse-drawn carriages, has a streamlined mudguard with continuous lines from front to back and mudguard skirts that partially conceal the wheels. This vintage car model is not just about aesthetics. Some special features make it appear more user-friendly and safer. For example, the one-man hood was designed to cover the front and rear seats. The exquisite interior design with a gear lever and a comfortable sofa-style seat adds to its charm. Assemble this dashing 3D wooden puzzle now, make it your perfect decoration and experience the charm of this unique era with other classic car enthusiasts. - Parts: 298- Assembly time: 4 hours- Difficulty: ????- Assembled size: H: 4.5?(11.5cm)\*W:3.6?(9.2cm)\*D:7.5?(19cm)\*Note:Due to customs regulations, wax may not be included in the package.Wax: You can use ordinary candles, crayons, beeswax, etc.
