03804 - Alouette II

from **22,33 EUR**

Item no.: 391918
 shipping weight: 0.40 kg
 Manufacturer: Revell

Product Description

Alouette II-Part number 03804-Recommended age: 12-Scale: 1:32-Parts: 191 Master the skies: Alouette II model kit - true to detail in 1:32 scale Discover the detailed model kit of the Alouette II, a masterpiece of French engineering and one of the pioneers of gas turbine-powered helicopters. This 1:32 scale kit is a tribute to the pioneering technology and elegant design of the original. With 191 precision-engineered parts, it offers a captivating challenge for Level 4 modellers who are already advanced in the hobby. The finished helicopter impresses with a length of 303 mm, a height of 86 mm and a rotor diameter of 318 mm, making it an impressive display piece in any collection. What's included: -191 precision-engineered parts -Rotatable rotor for dynamic display -Authentic decal for realistic detail -Detailed building instructions Special features: -Innovative building techniques: Designed for an immersive building experience and a detailed finished product. -Detailed textures: Each part has a detailed surface texture. Detailed surface textures: Each part is designed to mirror the complex structure of the real helicopter. -Rotating rotor: Gives the model a dynamic and realistic appearance. Authentic decal: Provides an authentic look and allows for customisation. This Alouette II model kit is ideal for advanced level 4 modellers. It requires experience in gluing and painting and offers an exciting challenge for anyone aged 12 and over who wants to demonstrate their skills and passion for modelling. Background information: The Alouette II is a symbol of progress in aviation and was one of the first mass-produced helicopter types with a gas turbine engine. Its introduction marked the beginning of a new era in aviation history and significantly influenced the development of future helicopter models. With this model kit, you not only hold a piece of technical history in your hands, but also the legacy of a helicopter that redefined the limits of what is possible.
