Hens

from **17,83 EUR**

Item no.: 386766
shipping weight: 0.30 kg
Manufacturer: Funbot

Product Description

Raise your own little chicken farm Dedicate yourself to raising chickens! Each round you play a chicken card from your hand and populate your chicken farm with different chicken breeds. You want to run the most successful chicken farm of all and collect as many medals as possible. You try to collect as many points as possible by cleverly arranging your new additions. You can place a chicken next to a chicken of the same breed, or next to a chicken of a different breed with a number that is 1 higher or lower. At the end, your chicken yard must have a 3x4 grid. If you are unable to place a chicken, you must place a hen house instead. There are new victory point conditions every round. Sometimes the largest brood of the same breed wins, on another map individual chickens earn you victory points. There are few and very simple rules for playing a map, but the difficulty lies in forming large groups of the same breed. At the end of the game, you score points for the largest group of chickens of the same breed, for the rooster tiles and through the order card. - for 1-4 players- ages 10+
