### Product Description

Insert: A Feast for Odin

e-Raptor Insert A Feast for Odin is a perfect accessory designed to organize and improve gameplay of the board game.

Thanks to this insert you can arrange all base game components and keep them in order – no more mess on the table while playing. No more looking for necessary elements during the game.

You can hold all your tokens, cards etc. in one place without being afraid of losing control of the setting. They can be easily accessed and do not take as much space as during the game without an insert. Also, when the box is closed, the components are still kept in order, ready for setting another game quicker than ever before.

The Insert allows you to put the board and a game manual inside without any issues with closing the box.

The insert is durable and made of high quality HDF. To assemble it, there is no glue required. It allows to hold all components inside the box, including board and manual.

Attention! Not suitable for children under 36 months.
