Product Description

A new stained glass window is urgently sought for the Sagrada Família church. But only the most magnificent motif should actually be used. As skilled artisans, the players in the game of the same name "Sagrada" must therefore not only plan carefully but also use their tools correctly to create a true masterpiece of stained glass.

In each turn, they choose two coloured glass pieces for their windows, represented by pretty semi-transparent cubes in all the colours of the rainbow. Each of these glass pieces, of which there is only a limited supply, must now be placed in the window immediately. In addition, in "Sagrada", certain colour and shading guidelines must be observed, which look different for each player. Glass pieces of the same type must never lie next to each other - a condition that becomes increasingly difficult to meet as the game progresses. Fortunately, however, there is also a random selection of tools in each game of "Sagrada" that allow you to work on the glass a little later or even exchange it.

The goal of the skilled artisans must ultimately be to shape the window according to the preferences of the often fickle admirers and thus gain the greatest prestige of all. At the same time, all players try to give their magnificent work of art their very own filigree flair in order to be able to truly honour the beauty of the Sagrada Família.

"Sagrada" is an extraordinary family game with a beautiful and imposing design. At the same time, simple rules make it easy to get started in the game. Thanks to the different building plans, however, the difficulty of Sagrada can be adjusted at any time. Numerous tool and order cards as well as the random combination of the dice also ensure immense replay value.
