### Product Description

Armata Strigoi - The Powerwolf board game, for 2 to 5 players aged 14 and over

The eternal battle between vampires and werewolves is coming to an end. The last vampire master and his apprentice, Strigoi from the Wallachia, live in the old fortress of Tismana: a fortress haunted by evil undead creatures. Nevertheless, the Powerwolf Sons of the Legends of the Night and the Armenia Savage Army, the defenders of the "True Truth", prepare for a final desperate attack, knowing that there are no alternatives to victory!

Armata Strigoi is a game where Powerwolf wins or loses as a team, but each player makes his own decisions about his actions and movements. Each player represents one of the Powerwolf heroes who attacks the Strigoi's fortress as a single pack. To win, they must defeat both vampires. However, both enemies are initially invulnerable and their vitality is inextricably linked to their residential fortress. After the demise of the first vampire, the entire structure begins to collapse, making victory a race against time!

The victory is achieved by defeating both ghosts. To make them vulnerable, the Powerwolf must first collect blood points by decimating the fellow creatures of the night that haunt the fortress. During their search they can also collect weapons and magic artifacts. When one ghoul dies, the other immediately transforms into a vampire of the Supreme Master, making them even more deadly. At the same time the fortress begins to collapse from room to room. When both ghosts are defeated, the Powerwolf team wins the game. It is not an easy task, but the hunt can begin!
