Product Description

Uranopolis - expansion for: Neuroshima Hex! 3.0 (DE), ages 8+

Deep in the American uranium mines, radioactive material was extracted using the most modern equipment. These miners survived the apocalypse deep down in their shafts and tunnels like in a bunker. Even after Moloch's attack, their uranium is a very valuable resource.

Over the decades after the impact, a busy society has formed that defends its underground fortress - Uranopolis - with converted digging tools. A bulwark of deadly efficiency from a bygone era ...
