Product Description

Soul of the wildfire - expansion for: Spirit Island (DE), from 12 years

A spirit of natural destruction - and subsequent renewal. However, the inhabitants of those regions that have been completely cleaned up by wildfires would like to do without it. He roams near settlements and enjoys their fires, but has been on the island much longer than the first Dahan; a child of the volcano and the green. The soul of the wildfire has always been friendly to the Dahan: Their early method of clearing land by clearing and burning gave him pleasure for decades. He later supported the Dahan during the Second Settlement. In the meantime he has hardly any contact with the Dahan, but spares their villages as much as possible while he takes action against the invaders on a large scale for the indigenous people.

Soul of the wildfire is an additional spirit for Spirit Island with medium complexity and is particularly suitable in combination with the branch and paw extension. This spirit begins very aggressively and becomes more and more powerful, but leaves a desolation as it gets stronger. The smaller the island, the more it has to be reined in to prevent total desolation. Wildfire Soul can heal areas in which it is present and benefit from other abilities against wasteland. However, removing wasteland from one's own areas weakens its permanent fire roller ability.

Warning! Not suitable for children under 36 months. Legal minimum age: 12
