### Product Description

Honey, Board Game, for 2-4 Players, from 5 Years

Lots of busy bees, flying from one flower to the next, in search of nectar to make their delicious Honey. In the game nectar drops are distributed to different flowers more precisely the drops are dropped in a tube under each flower. Players have to remember which flower has how much nectar to be able to collect a lot.

But even if they are not sure, every time nectar is dropped into a tube they can hear if a drop of nectar falls into an empty tube, or onto few or many other drops, thus giving them an audio clue to lucrative flowers. In a second step they move from flower to flower, collect the drops and try to fill their personal honey jar first, to win the game.

A clever mix of mechanisms and a beautiful 3D setup, plus audio clues mitigating the memory factor and giving equal chances to kids and their older siblings or parents – all of this makes Honey not only sweet but delicious.

Attention! Not suitable for children under 36 months. Legal age: 5
