Product Description

Logi-Geister, board game (DE), for 2-4 players, ages 5+

In the children's game "Logi-Geister" the ghost train suddenly comes to a standstill and the ghosts can no longer scare anyone. All the gears tumbled over and over again. The young players are now helping to put them back in the right place! The aim of the logic game is to connect all the gears so that the ghosts turn at the same time. The use of the wheels makes the children understand technical connections and they also train their fine motor skills.

In the slightly more difficult variant, each player has his own blueprint and tries to place the gears. Are the ghosts turning again? "Logi-Geister" trains forward thinking and is therefore a prerequisite for learning in elementary school. With the board game "Logi-Geister" the children expand their knowledge playfully and independently. Educational games that are really fun!

This is the motto of the educational game series by Ravensburger, with which children are supported in their development in the most intensive learning years. All games are developed and tested according to the latest scientific and educational standards. The learning materials are packed in exciting stories, a variety of materials and methods allow learning with all senses.

Caution: Not suitable for children under 36 months. Choking hazard due to small parts that may be swallowed.

- Players: For 2 to 4 players, ages 5+
- Playing time: 20 to 30 minutes
