Product Description

Minecraft Builders & Biomes the board game (NL, FR, IT, GB, DE), for 2 to 4 players, ages 10+

The board game for the world-famous video game phenomenon "Minecraft". Explore a constantly new world in this analogue Minecraft adventure and collect the most experience points to win. To do this, perform two of five possible actions on your turn. Collect blocks such as wood, stone or obsidian that you need to build structures. Move your character through the world of decks of cards and look for structures that match your tactics. Do you want a palace in the desert, a llama stable in the mountains or a bridge in the snow? If you have the right blocks, you can build the structures on your player board. Only those who plan cleverly and form groups of a property as large as possible will receive a lot of experience points in the three ratings in the game and can win.

Beware of the well-known Minecraft monsters such as Creeper, Zombie and Enderman, which are also hidden in the deck of cards. If you dare to fight a monster, you will get bonus points and other rewards if you are victorious. Uncover weapon tokens from your supply and try to defeat the monster with your swords, pickaxes and bows. If you fail, you should collect new, better weapon tokens with your character. With a diamond sword and TNT in your luggage, you can even conquer an Enderman. As soon as you have dismantled all blocks, the game ends. Whoever has the most experience points in the ratings and in the fight wins.

Minecraft Builders & Biomes is a cube-shaped treat for all Minecraft fans and those who want to become one.
