### Product Description

My most beautiful hidden object memories (DE, IT, FR, ES, GB, NL), for 2 to 4 players, ages 2.5 and up

Ali Mitgutsch, who is considered to be the inventor of hidden objects, takes you to many exciting places with his distinctive pictures. The stable memory® cards show very different motifs on all important children's topics: a tractor on a farm, a lighthouse, a sailing boat, sheep on the pasture, zoo animals, children on a sledge slope, a rubber dinghy on the water, a slide on a playground Swimming pool, a truck on a construction site, cows in a pasture and an ice cream truck in the city park. The varied motifs stand out from each other due to their clear coloring. This makes it easier for even the youngest to see the individual cards well.

Thanks to the large cards and the extra thick cardboard box, this first memory® particularly appeals to smaller children in interaction with adults who recognize the motifs from their own childhood. The Ali Mitgutsch memory is aimed at 2 - 4 players aged 2 ½ years and over and contains 24 cards. Hidden object fans train their concentration in a playful way in this memory game. The beautiful memory helps the children to relax after a hard day and to get involved in the beautiful details of the colorfully illustrated cards. memory® - the world-famous classic game has been delighting children and adults from 3 to 99 years of age for decades. The ingeniously simple rules of the game make it the perfect family game in which the little ones often win against the big ones.

Warning not required according to the Toy Safety Regulation.

- Players: For 2 to 4 players, ages 2.5 and up
- Playing time: 10-15 minutes
