## Product Description

EXIT puzzle: witch kitchen, 759 pieces, from 12 years

It's a sunny autumn afternoon and you are looking for mushrooms in the forest. When you discover a particularly magnificent specimen, you can't resist and try a small piece. Shortly afterwards you feel yourself getting dizzy. Everything starts to spin around you and you collapse at the base of a log. You realize that you've poisoned yourself and that you urgently need to find a cure!

Exit rooms are the live game trend and have long been a source of enthusiasm around the world. The idea: several players can be locked in a room to complete a mission. To do this, they have to solve puzzles that are hidden in the room. This game principle forms the basis for a completely new variant of the puzzle: the EXIT PUZZLE. If all 759 parts are in their place, talent for combination, imagination and intuition are required! Just like the live gamers in the Exit Rooms, the Exit Puzzlers also immerse themselves in an exciting story that takes them into mysterious worlds. But you can only become a hero of history if you - piece by piece - crack the last big puzzle and thus find your exit.

Attention! Not suitable for children under 36 months.

- Players: For 1+ players, ages 12+
- Number of parts: 759
- Puzzle size: 70 x 50 cm
