### Product Description

Mythos World - Hardcover, 17 Character books (DE Edition)

Who knows the end? What has risen may sink, and what has sunk may rise. - H.P. Lovecraft, The Call of Cthulhu.

In the role-playing game Mythos World, you uncover the horrors of the old, explore cult sites in the pristine forests of New England and are confronted with ancient horror in the electrified metropolises of the 1920s. Mythos World uses the dynamic PbtA control system (Powered by the Apocalypse) that you already know from Dungeon World, Monsterhearts or So deep the heavy sea. With two six-sided dice and moves such as "Reveal Knowledge" or "Confront Fear" you compete against Cthulhu, Nyarlathotep and the King in yellow and try not to go mad. Play to find out what happens! All rules are designed to help you tell an exciting horror story together. Follow your characters as they descend into the unknown and leave it to the moves to push the plot forward again and again through surprising twists and turns and cruel consequences. Mythos World can therefore be managed without lengthy preparation: A scenario contains all the important NPCs and opponents, information lists for the investigation and entry-level ideas for all professions on a few pages. Together with a kit full of frightening places, rituals, objects and monsters, your own game world of cosmic horror is created.
