Product Description

Hidden! Discovered? What is hidden in the face ?, 2+ players, ages 4+

A new creative memory game full of associations, designed by the well-known children's book illustrator Antje Damm. In this compact memory game, an everyday object becomes a face on the second memo card - or the other way around, you are asked to discover the sometimes well-hidden things in the faces.

So is hidden! - Discovered? a continuation of the MeterMorphosen memo classic What is it? in which everyday objects are transformed into animals. In the new game, the task is to find pairs in which an object has been transformed into a face or can be found in it. Spaghetti becomes a head of hair, a pancake becomes a face, a key becomes a pair of glasses and the navel becomes a mouth.

Attention! Not suitable for children under 36 months.

- Players: For 2+ players, ages 4+
- Duration: 30 minutes
