Product Description

Wherever there are werewolves, there are vampires. This is also the case with the sequel to the communication game, Werewolves - Vampire Night, in which the bloodsuckers are loose. The tried and tested game principle remains the same: Every night the vampires secretly eat a human. The following day, all players discuss who among them could be a vampire - and can lynch the most suspicious person after voting. Special characters like the insomniac and the investigator can get to the bottom of the vampires, but will they be believed the day after?

Werewolves - Vampire Night can be played independently, but can also be combined with the Werewolves reissue to play with up to 48 people in three teams (vampire, werewolf, village).

- Number: for 6 to 24 players
- Age: from 10 years
- Game duration: 30 to 90 minutes
