Product Description

Welcome back to the bazaar of Istanbul!

Once again, the players take on the roles of shrewd merchants whose goal is to get hold of goods and lira and exchange them for valuable rubies. But this time everyone has the bazaar as their own game board in front of them. And the places on it can only be visited a limited number of times. On their own turn, each player chooses a card: place cards allow all merchants to take the action there or the action of an adjacent place. To leave the other players empty-handed, the players can alternatively play a guild card, the use of which they have to pay for with valuable lira, but whose action is only available to them.

Fans of the Istanbul game series will recognise some places in Istanbul - Choose & Write, such as the Great Market or the Gem Merchant. Thanks to the new mechanism, however, the visit to the bazaar plays completely differently than in previous titles of the series.

Caution. Not suitable for children under 36 months.

- Number of players: 1-5
