ERA19337 - Insert: The Quacks of Quedlinburg + Extensions (GB)

from **20,77 EUR**

Item no.: 366766
shipping weight: 0.50 kg
Manufacturer: Poland Games

Product Description

Mix, add ... and hide when your pot explodes! In the e-Raptor insert you will find all the ingredients for the best elixir. The e-Raptor insert is compatible with The Quacks and the expansions:

- The Herb Witches
- The Alchemists

The set is an indispensable accessory to organise the game on the table and enhance the gaming experience. Thanks to this insert, you can store all the game components (even sleeved cards!) in a sensible way - no more clutter on the table while playing. No more searching for necessary elements during the game. You can store all the game pieces, dice, player markers, etc. in one place. They are also easily accessible and don't take up as much space as when playing without an insert. Even when the box is closed, the components remain organised and can be used for a new game faster than ever before.

See pictures for suggested component layout. The insert is made of high-quality HDF. No glue is required for assembly. The game is not included. Tested sleeve size: 57.5 x 89 mm
Caution! Not suitable for children under 36 months.
