Product Description

A dream wedding in the Caribbean: In Deadly Dinner, the small wedding party has arrived to celebrate the most beautiful day in the life of the bride and groom. But before the celebration can really begin, the groom is found dead.

The host invites the guests to a dinner party, where they take on the roles of murder suspects. One of them has committed the murder, but they all have secrets they would rather keep to themselves. Over three rounds, they try to find out the secrets of the other players without making themselves suspects. The common goal is to solve the murder case - or get away with the bloody deed.

A game of Deadly Dinner consists of three rounds in which everyone receives new information about the crime. In each round, the players also receive secret objects that can be found in envelopes in the package. The players have to discuss their information and clues in the group in order to identify the perpetrator at the end. In order to be prepared, the players should receive the starting information about their character a few days before the game.
