Product Description

You think you know the Alliance of German Countries? You have no idea, chummer. Away from the neon lights of the megaplexes, the headlights of motorway warriors cut through the darkness of the country roads. Harvest drones tirelessly traverse vast agricultural farms, while in forgotten ghost towns smugglers and cultists go about their business. So throw on your armoured jacket, grab your Warhawk revolver and critter rifle and get to know them: The rigging scene of the ADL, the coasts of the Baltic and North Seas in the North German Confederation, the shadows of Bremen and the secrets of Hesse-Nassau. Don't be afraid of danger: in the file on underground medicine we tell you who will patch you up. Or who will use your leftovers. And who knows? Maybe you'll land such an epic run that it will be immortalised in one of the 10 museums we present to you here.

The Shadow Dossier 4 is the fourth anthology of the Datapulse PDFs for the ADL for Shadowrun 6 that have been published so far. It brings together the Datapulses for the German Riggerscene, Hessen-Nassau, the North German Confederation, 10 Museums and Underground Medicine, including a small, exclusive expansion describing a resting place in the ADL. Shadow Dossier 4 is strictly limited and hand-numbered.
