Product Description

For generations, the tribes of humans and orcs have called the Desert of Scars home. Now they face an old familiar enemy: Even here under the scorching sun, darkness spreads its corruption. To keep them at bay, the most fearless of the barbarians step forward to face this threat. But will their courage and, above all, their fury be enough to drive back the darkness?

In the expansion Chronicles of Drunagor: Desert of Scars, players must face the new, merciless boss enemy Wermunggdir in three new adventures! They fight with the barbarians Katarina and Tork against this huge, pale worm from the depths of the desert. The expansion adds the Corrupted Lindworm enemy type to the game.
