Product Description

The first rays of sunshine make their way through the light wafts of mist that still lie over the moor. Ancient trees sway in the wind on the swaying ground. This is not only a habitat for highly specialised animal and plant species, but above all an incomparably important place for our climate. In Moorland, players bring their own moor to life by settling rare plant and animal species there. They create a clever network of waterways to "wash" their plant markers into the right places. This is the only way they can play the right cards in their moor and triumph over the moors of their fellow players. By purchasing this game, players support environmental projects around the world. Caution! Not suitable for children under 36 months. - Number of players: For 2 to 4 players aged 10 and over - Playing time: 45 to 60 minutes
