Product Description

You see that you see nothing. KRYPT is the ultimate challenge for all puzzle fans. Its uniqueness does not lie in the printed motif: the puzzle is based solely on the shape of the pieces. That's why Krypt consists of individually shaped pieces. For puzzlers, perseverers and those who stick with it. Every puzzle fan should at some point show their colours and take on an unprecedented challenge! Break new ground with Krypt and take the ultimate step towards becoming a professional. How do you do that? You have to say goodbye to the classic puzzle by motif! There's no such thing here, and that's exactly where the appeal lies. Now it's time to get to grips with the fantastic variety of shapes of the consistently monochrome puzzle pieces that are only available from Ravensburger - with a pinch of patience and lots of puzzle fun, you'll find yourself in a veritable puzzle vortex in no time at all, from which you won't want to emerge. A must for all those who are up for the ultimate challenge or are looking for distraction and relaxation in a really wacky way. Anyone who bites their way through this game can justifiably claim to have achieved the almost impossible. Important information Warning!
