Product Description

In the junior version, a queen bee leads her worker bees in building her new honeycomb. They need help to do this! The locations of the worker bees are determined by rolling all six dice at the same time. The challenge now is to place all 11 coloured shapes around the bees without any gaps in order to complete the entire honeycomb. 46,656 possible combinations in one-player mode offer a great gaming experience for children aged 3 and over - with no time limit! Important information: Magnets included! Caution! Not suitable for children under 36 months.
