Product Description

Piece by piece, assemble a beautiful plastic crystal figure in the shape of a pair of green frogs from the differently shaped individual pieces. The three-dimensional puzzle is a real challenge for your spatial imagination: the two-dimensional pictures in the instructions have to be transformed into three-dimensional objects. Each 3D puzzle piece looks different, making it particularly tricky. If you are good at puzzling, you will be rewarded with a high-quality decorative element. Important information Caution! Not suitable for children under 36 months.
