from **17,51 EUR**

Item no.: 366785
shipping weight: 0.50 kg
Manufacturer: e-Raptor

Product Description

Earn the guardians' utmost trust and manage to light up the city. Do it faster with e-Raptor Insert!

The e-Raptor insert is compatible with Bonfire. The set is an indispensable accessory to organise the game on the table and enhance the gaming experience. Thanks to this insert, you can store all game components (even sleeved cards!) in a sensible way - no more clutter on the table while playing. No more searching for necessary elements during the game. You can store all the game pieces, dice, player markers, etc. in one place. They are also easily accessible and don't take up as much space as when playing without an insert. Even when the box is closed, the components remain organised and can be used for a new game faster than ever before. The box can be set up on end.

See pictures for suggested component layout. The insert is made of high-quality HDF. No glue is required for assembly. The game is not included. Tested sleeve size: 44x68mm. Caution! Not suitable for children under 36 months.

- Format: 20cm x 20cm x 5cm
- Weight: 1300 g
- Contents: The insert fits into a box with the dimensions: 31.5 x 22.6 x 5.6 cm
