Product Description

Trilos, Geschicklichkeitsspiel (DE), for 1 player, ages 6+

Trilos is a brilliant, challenging puzzle game for one player. The game promotes visual perception and logical thinking. The game offers challenging tasks with different levels of difficulty. There are also 5 differently shaped parts with different colors. This is to solve the tasks. A task shows a pattern. With the five parts, the player should now add the pattern. All parts must be placed on the template. The parts with the different colors must also match the illustrated colors of the task exactly. Quite a challenge, because the higher the level, the more difficult it is to put the pieces correctly.
