FKS6843650 - Catan: Energies

from **55,50 EUR**

Item no.: 382865
shipping weight: 1.20 kg
Manufacturer: Kosmos

Product Description

Catan needs energy! The players are responsible for building power stations to meet the energy needs of the modern island. But be careful: if they decide in favour of fossil fuel power plants, the pollution on Catan will increase. The construction of settlements and cities also has a negative impact on the environment. Fortunately, power plants that use renewable energy can neutralise the pollution. In this stand-alone game, it's up to each player to decide how to shape the environment on Catan. Which path will you choose? Important notes Warning! Not suitable for children under 36 months. - Number of players: For 3 to 4 players aged 12 and over- Playing time: 90 minutes
