39056 - Cutting Mat, small

from **6,59 EUR**

Item no.: 391947
shipping weight: 0.20 kg
Manufacturer: Revell

Product Description

Product description The "cutting mat, small" is the perfect addition for modelling projects. With a size of 300 mm x 220 mm, it is a compact and practical choice for the workspace. It is a multi-layer cutting mat with self-healing properties, which ensures that cuts disappear quickly and the mat is always ready for use. The blue, non-reflective surface not only protects the work area, but is also easy on the eyes. Guide lines and scales enable particularly precise work. This cutting mat is the ideal complement to the Revell Work Station (39085) and an indispensable tool for any modeller who wants to achieve professional results.
