Eurofighter Typhoon - Detailed model kit for advanced modellers
Discover the Eurofighter Typhoon in its miniature form with our precise 1:144 scale model kit. With 63 carefully crafted parts, a length of 111 mm, a height of 37 mm and a wingspan of 76 mm, this model is ideal for experienced modellers (level 4). The Eurofighter Typhoon represents the latest generation of high-performance multi-role combat aircraft and impresses in our model kit with finely textured surfaces, a detailed cockpit, elaborate landing gear and two ASRAAM guided missiles especially for the RAF version. The included decal allows an authentic representation of the RAF versions of the Typhoon.
Scope of delivery: 63 precisely manufactured parts
Detailed cockpit and landing gear
2 ASRAAM guided missiles
Decal for the RAF versions
Detailed instructions
Special features: Finely textured surfaces with recessed sheet metal joints
Highly detailed design for a realistic replica
Special equipment for the RAF version
Authentic decal for customisation
This kit is ideal for advanced modellers (level 4) who have already gained experience in gluing and painting models. With its demanding complexity, it challenges and promotes the skills and understanding of detailed modelling.
Background information: The Eurofighter Typhoon dominates the skies as the latest generation of multi-role fighter aircraft with a top speed of Mach 2.0+. Its versatility and performance are unrivalled, whether in long- and close-range air combat or air-to-ground operations. This model not only offers a rewarding building and collecting experience, but also an insight into the advanced technology and history of one of the world's leading fighter aircraft.
